## TECHNICAL SKILLS AND INTERESTS

<b>Languages:</b>	Java, JavaScript, C (Programming)
<b>Developer Tools:</b>	Git, Github, Visual Studio Code.
<b>Web Development:</b>	Html, Css, Javascript, Bootstrap, Tailwind, Reactjs, Vite, Material UI, Nodejs, Expressjs, MySQL.
<b>Other-Technical Skills:</b>	Figma, Prompt Engineering, Linux OS.
<b>Language:</b>	Hindi, English.

## Relevant CourseWork

- Data Structures & Algorithms
- Object Oriented Programming
- Database Management System

## PROJECTS

### Tech-Store App

**Technology** – *Html, Css, JavaScript, React, Vite Etc.*

- Developed a responsive Tech Store App using React, Vite, HTML, CSS, and JavaScript. The app features categorized listings of tech products, including phones, laptops, and accessories, with user-friendly navigation, product comparisons, and review functionalities. Designed for educational purposes, emphasizing clean UI/UX and trusted data from official sources and e-commerce platforms.

### Simon Game

**Technology** – *Html, Css And JavaScript Etc.*

- Developed a web-based Simon Game using HTML, CSS, and JavaScript. The game challenges players to repeat increasingly long sequences of button presses. Features include interactive gameplay, dynamic difficulty levels, visual feedback, and a responsive design for a seamless experience across devices.

### Spotify Clone

**Technology** – *Html & Css Etc*

- Developed a responsive Spotify web player clone using HTML and CSS. Features include a navigation sidebar, main content sections like Recently Played and Trending Now, and a fixed bottom music player with album art and controls. This project demonstrates proficiency in front-end development and UI design.
